Profile

I'm a highly motivated and enthusiastic Junior Web Developer with strong academic background in Computer Science. Possessing a key eye for detail and passion for problem solving, I am eager to bring my technical skills & team-oriented approach to a dynamic software development environment. I have experience with software and have successfully finished a number of online software and data analytics training courses as well as developer certifications in areas like Web Design, JavaScript Algorithm, Data Structures, etc.

Education

11/2017 – 11/2022	**Bachelor of Science, Computer Science,** *Federal University Lokoja*	Lokoja, Kogi State, Nigeria

Professional Experience

05/2021 – 09/2021	**Web Developer Intern,** *Complete Computers & Technology.* (i) I acquired knowledge on how to improve web page functionality and user experience. (ii) Created dynamic, browser-compatible pages using JavaScript, CSS, and HTML.	Akure, Ondo State, Nigeria

Skills

HTML	▰▰▰▰▱	CSS	▰▰▰▰▱
JavaScript	▰▰▰▰▱	Bootstrap	▰▰▰▰▱
React	▰▰▰▱▱	Microsoft Office	▰▰▰▰▱

Certificates

- Responsive Web Design | freeCodeCamp ⧉
- JavaScript Algorithm and Data Structures ⧉

Projects

03/2023 – 03/2023	**Digital Clock** ⧉ I designed a digital clock web app. It displays time in hours, minutes and seconds. This tool was created using HTML, CSS, and JavaScript.	
02/2023 – 02/2023	**Calculator** ⧉ I designed a calculator web app. Basic arithmetic operations like addition, subtraction, multiplication, and division can be carried out with it. I solely used HTML, CSS and JavaScript to create it.	

03/2023 – 03/2023	**Random Quote Generator** ⧉
	I created a website application that produces random quotes. The web application enables users to copy and tweet a specific quotation. It also enables the user to hear how a quote was said. I designed it using HTML, CSS, and JavaScript.
03/2023 – 03/2023	**Quiz Web Application** ⧉
	I developed a quiz online application that enables users to take completely personalized quizzes across various categories in the browser. Furthermore, it enables users to customize the quiz's length, complexity, and number of questions. I used HTML, CSS, and JavaScript to build this.

Courses

07/2022 – 08/2022	**JavaScript Algorithms and Data Structures,** *freeCodeCamp* ⧉
	I gained knowledge of JavaScript's basic programming concepts. I began by using simple data types like characters and numbers. Then, I discovered how to use objects, loops, if/else expressions, functions, arrays, and more.
06/2022 – 07/2022	**Responsive Web Design,** *freeCodeCamp* ⧉
	I studied HTML (Hypertext Markup Language), which is used for content, and CSS (Cascading Style Sheets), which is used for design. Also, I learned how to use CSS grid and flexbox to make websites adapt to different screen widths.
